SC1
Does the video exclude any intermission/d read periods?

SC2
Is the video saved to the streaming app or the user's video library on their phone?

SC3
Will the user be able to switch devices to view the concert during the concert?

CE1- how does Jack save the video

CE2- is the link the same link as when the concert was happening live?

CE3- can Sally save the video through the link Jack shared

SE1: why is it encrypted

SE2: is this because Jack he bought the ticket and not Sally?

SE3: would it still be encrypted or does it require a password?

SC4
How many people is Jack allowed to send a concert video link to?

CE4- is the video only available on mobile?

CE5- did they buy tickets together

CE6- how did the encrypted video get to Sally's phone (when they were watching on desktop)?

SE4- is she watching the concert in the concert portal or through her phone's built-in video player?

General Outline

1. Upload your storyboard to this artboard
2. Individual critique (see below)
3. Dot vote on elements to include in final solution (decider gets red)
4. Discussion on final elements based on team stickies
5. Justification of your decision due by 4/20 to D2L folder

Critique Structure

1. Creator will remain quiet. No introduction.
2. **Add a dot to the storyboard** where you have critique. Put your initials in the dot with a number (e.g. MO1, MO2, MO3)
3. **Put your corresponding critique on a sticky notes** (e.g. MO1 -..., MO2-...)
4. Note -- One thought per sticky.
5. Once fully critiqued, the **creator will read out each dot. The teammate will read out the corresponding critique.**
6. No discussion. Just reading.
7. **Repeat** for each storyboard.
8. After critique **move to dot voting.**

3. Final Step. Dot vote on aspects of a storyboard you want to move forward with. You can dot vote on an entire solution or just a part, up to you. No discussion at this point.
